

cloud every day in a cloud of wellness

cloud turns water into everyday wellness

Steam, rain, cascade, nebulization.

The new frontier for Jacuzzi® domestic wellness is a hammam where you can experience all the emotions and benefits that water can offer. The newborn Cloud combines the dynamism of water for care and relief to the body with the detox, anti-fatigue and regenerating treatments of a steam bath with aromatherapy and chromotherapy.

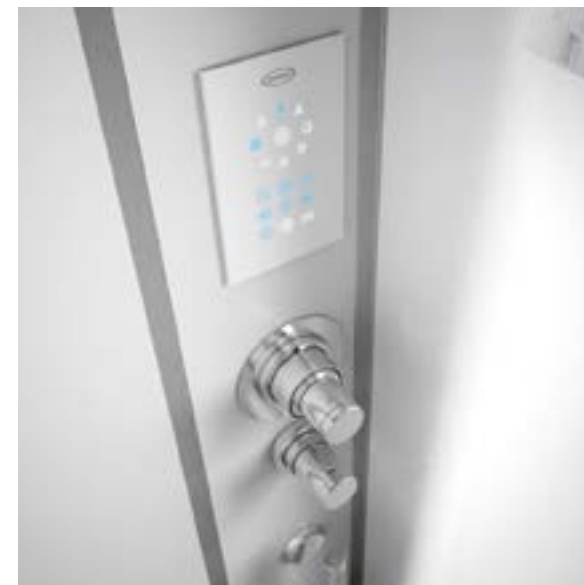

Wellness made to measure.

Cloud is an authentic daily spa providing personalised wellness paths with targeted water jets and two programmed sequences, intense or delicate, accompanied by colourful mood lighting. The first - energizing - awakens and provides energy in 5 minutes and is ideal for boosting circulation. The second - relaxing - relieves tension and has an anti-fatigue action.

Maximum customization.

With Cloud, you can create a hammam tailored to your environment. In fact, it is available in sizes 100x80, 120x80 and 140x90 cm. There are different types of installation, flush with the floor or with shower tray, right or left corner and three different versions: Base, Dream and Home Spa.

DESIGN

Cloud has essential cutting edge aesthetics with linear and continuous surfaces. It integrates perfectly into any type of space thanks to the concealed wall system. It is available with hinged or sliding doors and wall lining.

HEALTH

The interior spaciousness and comfort are optimal. The wellness programs can be customised according to your needs with water jets in sequence, intense or delicate, at the desired temperature and which can be modulated, alternating to the different personal care treatments.

PERFORMANCE

The multi-climate hammam is equipped with double steam outlet with an essence diffuser for aromatherapy and integrated descaling system. Excellent materials: fitted wall and roof characterised by an insulating composite panel with white acrylic finishes, 6 mm glass with glass recessed hinges and aluminium profiles for the closures.

PLEASURE

The pleasure of technology has never been more immediate. The tempered glass Touch control panel with a LED backlight in two colours always ensures maximum readability. The Bluetooth® audio system lets you listen to your own playlists and the Cromodream® function adds the pleasure of chromotherapy to the wellness treatments.
